### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

1. This application contains claims 8-13 drawn to non-elected inventions. In 4/9/2007, applicant elected to prosecute Group 1 that associated with claims 1-7. The requirement is deemed proper and is therefore made **Final**.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 is unclear from the specification *how the setting position is being calculated and how the laser emitting means from the emit angle of the laser beam and a laser beam emitting position is being measured.*

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Henrion et al.

(5,868,675).

Art Unit: 3734

Henrion et al disclose in figures 1, 4, a position measuring system as best understood having the limitations as recited in the above listed claims, including: a position indicating means 31, 32 (see col. 5, lines 47-57) which is able to indicate a position and a direction of a tool, where a three-dimensional position measuring means (see col. 10, lines 9-14) is able for measuring a position and a direction of a surgical field, where the position indicating means and the three dimensional position measuring means are fixed at best seen in fig. 1, see col. 3, lines 35-44), where the system is held on a stand at 3 and where the position measuring device is held by an arm (locates to the left side of element 3), and where the system further has a means 110 which is able to calculate the setting position and direction of the laser emitting position from the angle of the laser beam (see col. 4, lines 65-67, col. 5, lines 5-12).

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
